MEMORANDUM FOR: Project Director

THROUGH: Project Director for Administration *RBA 6/2/56*
THROUGH: Project Contract Officer

SUBJECT: Request for Feasibility Studies on Construction
of Rectifiers for 70mm Photography and Long
Focal Length Photography

1. It is requested that the Project Contract Officer contact Dr. R. Scott and Dr. J. Baker to obtain cost estimates for preparation of feasibility studies for the construction of a device to rectify 70mm photography and a second device for rectifying long focal length photography.

2. The cost of preparing the subject feasibility studies would be borne by D/GP - ORR. Dr. Scott and Dr. Baker have previously provided rough verbal estimates on costs of such equipment as stereoscopes have been subsequently increased by an extreme amount.

3. In order to properly evaluate the subject equipment as to its potential for Agency use it is essential that D/GP have accurate information as to cost and estimated time of fabrication.
